EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is passive while the buyer is active. On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Advertising Service

ADVERTISING is the business of telling the greatest number of persons the most interesting facts about any given subject at the lowest per capita cost.

That is all there is to the so-called “psychology of selling.”

R. L. Polk & Co. of California is prepared to analyze any business problem and to recommend the most economical method of marketing the product or service that is for sale.

This service is free.

GILROY

Santa Clara County, California

The Home of the Prune

Population 3600.

Elevation 191 feet.

Twenty miles to the Pacific Ocean, a climate of comfortable temperatures at all seasons.

The sun shines 85 per cent of the day hours in summer and 60 per cent in winter. Gentle and pleasant wind averaging 5.7 miles per hour.

A friendly town of shady streets and quiet, peaceful homes surrounded by thousands of acres of fruit, dairy, poultry, garden and flower seed farms and cattle ranges in the southern end of the famous Santa Clara Valley noted for the high quality of its agricultural products.

PRESERVES a Large Business
SECURES Success in Any Business
SAVES a Failing Business
ENABLES You to Pay Your Taxes

DIRECTORY ADVERTISING

BRINGS SATISFACTORY RESULTS

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

POLK'S LOS GATOS CITY DIRECTORY 1933

COPYRIGHT, 1933, BY R. L. POLK & CO. OF CALIFORNIA

Los Gatos, in the fertile Santa Clara Valley, is on the Southern Pacific Railroad, 12 miles southwest of San Jose, the County Seat, with which it is connected by street car and bus lines. It is in close proximity to many places of interest. San Francisco with its China town, water front, and Golden Gate Park. Big Basin, home of the giant redwoods. Santa Cruz, Capitola, Rio del Mar, and other beach resorts on the beautiful Monterey Bay.

The city is spread over low valleys and picturesque oak-covered knolls ranging from 400 to 2,000 feet in height, offering magnificent views, and available lands for farm and home sites at reasonable prices. Above the frost belt with an altitude of between 500 and 1,000 feet, there is an average temperature of 58 degrees Fahrenheit, pronounced by the medical profession to be one of the two healthiest spots in the world.

Los Gatos is a city of nearly 6,000 population with well paved streets, mountain spring water, gas and electricity, sanitary sewer system, and strict supervision over safety and health; excellent educational advantages, including a new elementary school, a new Union High School, the Montezuma Mountain School for Boys, the nearby Stanford University, Santa Clara College, and the San Jose State Teachers College; a municipal swimming plunge; one of the finest sanitary auto camps in the state with well equipped community house; La Rinconada Country Club with its beautiful new 18-hole golf course; an open air community pageant produced by noted California authors every year, and a Chamber of Commerce that will gladly furnish additional information.

NAMES APPEARING IN BLACK LETTERS

IN THIS DIRECTORY are the names of those who **accomplish things** and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that **energy and push** so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

. . . . PATRONIZE
THEM

IT PAYS To Be Prominently Displayed

To let people know WHO you are,
WHERE you are and WHAT you
have to sell. The City Directory
keeps your name before the public
365 days in the year, and it cannot be
prominently displayed in any book
so CONSTANTLY used as the City
Directory.

How to Use This Directory

To get the most good from this Directory you must know what it contains and how to use it. You cannot get this knowledge by glancing hastily through the book, and assuming that your mind grasps a full idea of its contents from the name.

**READ THE TITLE PAGE, FRONT OF
BOOK, AND GLANCE OVER THE INDEX**

THE PUBLISHERS.

POLK'S LOS GATOS

Directory of Householders, Occupants of Office Buildings and Other Business Places

Including a Complete Street and Avenue Guide 1933

COPYRIGHT, 1933, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

A GOOD FOUNDATION

For a successful business is accurate knowledge
of all to whom you might sell or of whom you
might buy.

USE THE CITY DIRECTORY

THE CITY DIRECTORY

represents the City and its
institutions in every cor-
ner of these United States

**Are You Properly
Represented In It?**

**The Classified portion
catalogues the professions
and goods handled here**

**ARE YOU LISTED UNDER YOUR PROPER HEADING
SO THE PROSPECTIVE BUYER CAN FIND YOU?**

MOUNTAIN VIEW

Close to everywhere. Thirty-six miles
from San Francisco, in the heart of the
world-famed Santa Clara Valley. Six
miles from Stanford University, the
home of President Herbert Hoover. Forty
miles from the University of California.
There are 56 trains daily between San
Francisco and San Jose, that stop at
Mountain View. Average running time
to San Francisco, one hour. Fast high-
way auto stages go back and forth be-
tween San Francisco and San Jose, via

Mountain View, at 20-minute intervals.
Mountain View has a new \$350,000 high
school plant and a new \$165,000 grammar
school. Mountain View has one of the
most healthful climates in the world.
Mean annual temperatures, max. 69.3;
min. 45.1 degrees.

A GOOD FOUNDATION

For a successful business is accurate
knowledge of all to whom you might
sell or of whom you might buy.

USE THE CITY DIRECTORY

ONE OF 330 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

**MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS**

There are over 480 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

Send for list of libraries and privilege card

POLK'S SANTA CLARA Directory of Householders, Occupants of Office Buildings and Other Business Places Including a Complete Street and Avenue Guide 1933

COPYRIGHT, 1933, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

throughout the
United States

Your Questions Answered

Many questions pertaining to
the city are answered by the
City Directory.

Who lives where?

Who are the city officials?

Where is a certain street?

Who are the foreign consuls in
the city?

What societies and churches are
represented?

These and a thousand more
questions are answered by
the City Directory. Order one
today.

SAN JOSE, CALIF.

TELEPHONE BALLARD 7004

62 STOCKTON AV.

When People "Want"!!

THEY LOOK IN THE

CITY DIRECTORY

(CLASSIFIED SECTION)

- ❑ Is your name under the commodity they seek?
- ❑ If not, that opportunity of routing valuable business to you is lost. It's about the same as if you kept one of your entrance doors locked.
- ❑ Hadn't you better investigate your omnipresent city directory, and convince yourself of how it can help your business?

***A Real Necessity In
Every Office***

**The City
Directory**

**The Modern Up-to-Date Method
of Getting Accurate Information Quickly**

**A Time Saver—A Money Maker For Every
Business—Let Us Show You How**

**R. L. POLK & COMPANY OF CALIFORNIA
Directory Publishers**

CITY DIRECTORY USES

1. Sales Promotion

a—Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b—Leads—

Determining parts of city best suited for increasing business. The alphabetical listings for each business and professional concerns, shows the names of the owners, partners or officers.

c—Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d—Building mailing lists and direct mail campaigns—

1. Listing of local people (Neighborhood List) within a given radius of business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city. Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. Credit

a—Verifying customer's statements and information—

b—Information about customer—

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c—Determining character and stability of applicant for credit—

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.
